

### **Wean to finish penning**

Economical galvanized or powder painted steel equipment for wean to finish applications. Standard height is 35".

Equipment is a modular system - only welded parts are the gates - this gives an opportunity to adjust the length and width of the equipment, to fit all applications and designs.

The equipment has both a big gate and a small gate solution.

The small gate has a spring loaded gate lock.

The big gate has a easy finger lock.

The equipment line is complete with stabilizer, extra bolt-on-legs and post.
